

Tech specs

12V PSU for Hub 2/ReX 2

Power supply unit for the device operation from a low-voltage power source

Compatibility

Hubs: [Hub 2 \(2G\)](#) [Hub 2 \(4G\)](#)

Radio signal range extenders: [ReX 2](#)

Input

Voltage: 8–20 V $\overline{=}$

Current: up to 1 A

Turn-on voltage: 8 V $\overline{=}$ \pm 2.5%

Turn-off voltage: 6.9–7.5 V $\overline{=}$ Depends on the load

Output

Voltage: 4.8 V $\overline{=}$ \pm 3%

Current: up to 1.5 A

Installation

Installation method into the hub or range extender enclosure

Operating temperature range : from -10°C to +40°C

Operating humidity: up to 75%

Connection to the power supply network

Connector slot: 6.5 × 2 mm

Power jack (female)

[12V PSU](#)

Board

Colour: N/A

Dimensions: 98 × 70 × 17 mm

Weight: 26 g

Complete set

12V PSU for Hub 2/ReX 2

Terminal adapter
