

Technical properties of terneo R10-3

Sphere of application:

[temperature sensors](#)

Weight of full package:

0,058 kg \pm 10 %

Overall dimensions (W x H x D):

7,1 x 5,9 x 15,1 mm

Temperature sensor:

NTC thermo-resistor 10 KOM at 25 °C

Length of connection wire of sensor:

3 m

Range of measured temperatures:

-30...+90 °C

Temperature measurement accuracy:

\pm 5 %
