Handy socket-mounted LED night light with photosensor. Excellent anywhere you need emergency lighting and even beyond.

Handy socket-mounted LED night light with photosensor. Excellent anywhere you need emergency lighting and even beyond.

## Enhanced content

**Reliable helper**

COOKIE SETTINGS

The P3306 night light **finds its way into hallways, staircases and many other corners of the house or apartment.** Its subdued, unobtrusive light will make it easier to find your way around, make the atmosphere more pleasant and in some situations it can even replace the main light.

It will also become a friend of smaller children who will not be afraid to fall asleep in the dark in their rooms, and its subtle **cool white light** will make it easier for them to go to the toilet or their parents' bedroom at night.

## Useful Features

With the P3306 Night Light, you can forget about night lighting worries. Thanks to the built-in **day/night sensor**, the light **automatically activates and deactivates according to the ambient light**, ensuring **efficient energy use** and worry-free use throughout the day.

With a range of **up to 2 meters** and **luminous flux of 2 lm**, you will create a pleasant atmosphere in the room, adding coziness and charm to the interior.

## Elegant design

Thanks to its **compact and timeless** design, the P3306 night light will fit **into any socket**. It will stand out in both traditional and modern interiors and the only condition for its operation is the **presence of a 230 V socket** from which it is powered. With **mains power** you can be sure it will be **always ready** to provide unobtrusive lighting.

**Wide portfolio of products**

**Excellent stock availability**

**Optimal price / quality**

**Fast communication**

### The most important parameters

power source	230 V~/50 Hz, max. 0.5 W
motion sensor	no
source of light	LED

## Other parameters

maximal light output	2 lm
maximal beam distance	2 m
light color	cool white
switch	no
automatic on/off	yes
lighting modes	automatic
time delay	not stated
photosensor	yes
max. output 1× USB	not stated
max. output total	not stated
rotation	no
protection against overload, overvoltage and short circuit	not stated
number of USB outputs	not stated
power	0.5 W max.
dimensions	46 × 67 × 46 mm
packaging	1 pc, blister
