Zigbee Friends of Hue RF switch

4-button flat switch with 2.4 GHz Zigbee Green Power and Friends of Hue standard radiofrequency transmitter, energy harvesting supply powered by built-in electrodynamic generator, to complete with Eikon 20506, Arké 19506 or Plana 14506 buttons - 2 modules

- Batteries are not required: the power supply is self-generated on pressing the push button, which activates the internal electro-dynamic generator. This small fraction of energy is capable of activating the radio frequency wave
- The wireless 1-way switch designed to be positioned anywhere, including on glass or wood, requires no masonry work
- Since they do not require wired connections, the signal is transmitted via radio
- Use of low energy radio technologies applied to the controls, electromagnetic radiation and pollution are practically non-existent
- Batteries are not required, thus respecting the environment

Product Status

3 - Active

Technical data

- **Class group:** Installation bus systems
- **Class:** Light control unit for bus system
- **Bus system KNX:** No
- **Bus system KNX-RF (Radio Frequency):** No
- **Bus system radio frequency:** Yes
- **Bus system LON:** No
- **Bus system Powernet:** No
- **Other bus systems:** None
- **Radio frequency bidirectional:** No
- **Mounting method:** Surface mounted
- **Width in number of modular spacings:** 2
- **With bus connection:** No
- **Substation input:** No
- **Local operation/hand operation:** No
- **With LED indication:** No
- **Interface 1-10 V:** No
- **Number of inputs for light sensor:** 0
- **Degree of protection (IP):** IP40
